

**YOU DESIGN IT – WE MAKE IT – CUT DESIGN**

Westag & Getalit offers a selection of cut-to-size and even completely finished worktops via an individually programmed software package called CutDesign. CutDesign has been developed for all worktop requirements, if kitchen industry, retail trade – anything.

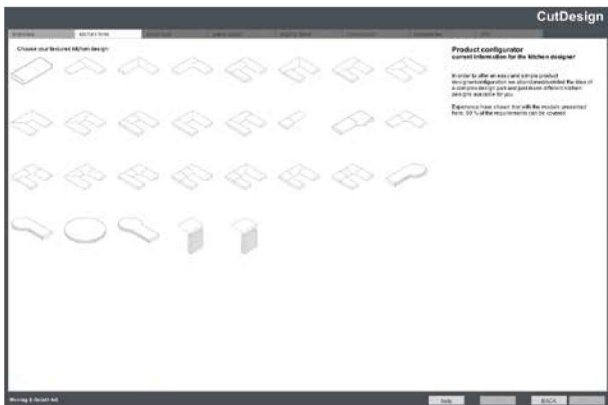

This unique step-by-step software programme efficiently takes you through the complete worktop cut-to-size and cut & edge process. Starting with the kitchen layout selection and finishing with a comprehensive drawing and specification – all entirely created within the CutDesign software programme.

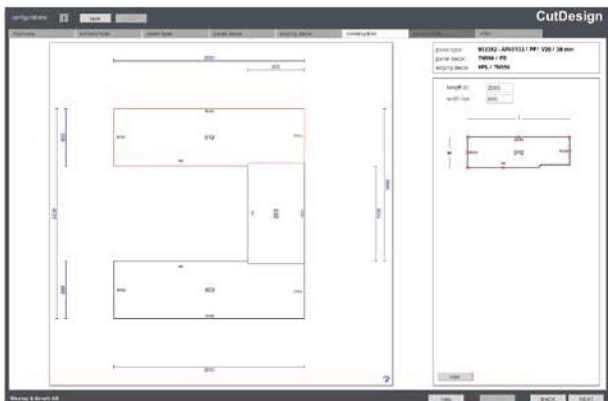

## In 3 steps to get the perfect offer

For your individual offer and order processing make use of our comprehensive software CutDesign.

### 1. Select kitchen form / type of top / decor

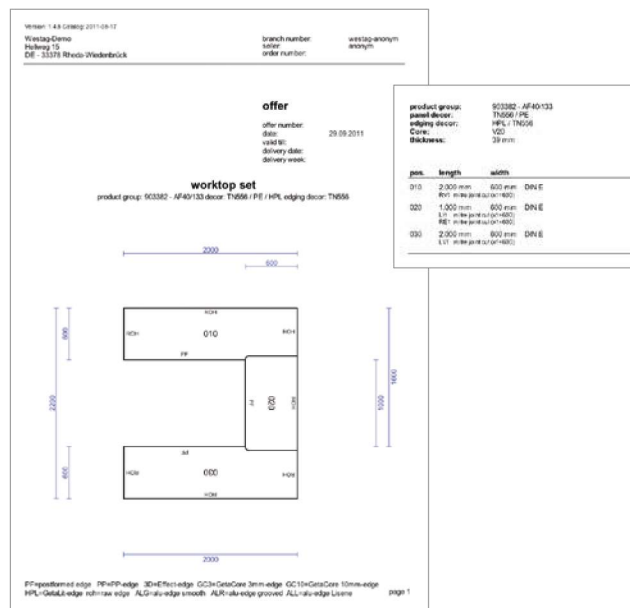

## 2. Construction

### 3. Print offer

On the basis of your terms and conditions CutDesign generates a perfect offer for your customer!

## A NEW WORKTOP WITHIN THREE WEEKS

### WEEK 1: QUOTATION & ORDERS

by phone:  
**01604 718580**

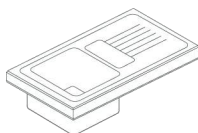

by fax:  
**01604 791260**

by e-mail:  
[info@worktopsatterrywilson.co.uk](mailto:info@worktopsatterrywilson.co.uk)

online:  
[www.worktopsatterrywilson.co.uk](http://www.worktopsatterrywilson.co.uk)

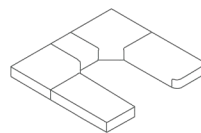

Use the Westag & Getalit AG brochures, swatches and samples to select the ideal work surface, material thickness etc.

For kitchen worktops (GetaLit® HPL and GetaCore® solid surface) visit [www.cutdesign.co.uk](http://www.cutdesign.co.uk) to browse styles and pitch your favourites. Choose from a wide range of colours and finishes.

#### SINK MODULES

## A NEW WORKTOP WITHIN THREE WEEKS

### WEEK 2: PRODUCTION & SHIPPING

- Just in time production
- Fully automated and computer integrated manufacturing
- Capacity of 2.500 pieces per week
- High quality management system in place
- Packing and Labelling
- Shipping from Germany to Westag UK depot

#### ENVIRONMENT-FRIENDLY PRODUCTION

Westag & Getalit works with the energetic utilization of environmental friendly, sustainable raw material sources and gains the complete power requirements from an ultra modern cogeneration unit (CHP). Surplus electricity production is fed directly into the public power supply network. This way Westag & Getalit helps save and optimise natural resources.

#### ISO 9001 CERTIFICATION

Westag & Getalit fully complies with the international management standards (DIN EN ISO 9001:2000). The uncompromising monitoring of this philosophy and production is focused on during Westag & Getalit's every day workflows. This is not only conducted out by our own laboratory, but also by the competence of external and independent audit teams.
